SDG

Built for Resilience. Driven by Value. Delivered with Care.

OVERVIEW

SDG is a trusted partner in cybersecurity, empowering organizations to build AI-powered cyber resilience that enables confidence in identifying vulnerabilities, reducing risk, and strengthening digital trust through tailored Identity, Risk, and Threat managed services, strategic advisory, and transformation programs.

Identity - Elevate your IAM effectiveness to govern identities and access at scale—reducing risk and friction with policy-driven controls, automation, and Zero Trust alignment while improving user experience.

- Identity Governance
- Access Management
- Privileged Access Management
- Customer Identity & Access Management

Risk - Transform risk into action and compliance into confidence with adaptive, expert-driven services that ensure your organization thrives amid regulatory complexity and emerging threats.

- Compliance as a Service
- Third-Party Risk as a Service
- AI Governance & Data Privacy
- Cyber Resilience as a Service

Threat - Build resiliency and agility through smarter strategy and stronger security that closes visibility gaps, reduces response time, and improves decision-making across identity, cloud, endpoint, and infrastructure.

- Cybersecurity Assessments
- Technology Optimization & Automation
- Managed Cloud & Infrastructure Security
- Microsoft Security & Cloud Services
