

Empower Your Security Measures: SDG's Managed Services and Microsoft Security for Unmatched Protection

OVERVIEW

SDG's 30-years of expertise in managed services combined with our advanced security specialization in cloud security, threat protection, risk, and identity and access management, ensure competent advisory, delivery, and management of the latest Microsoft security solutions.

SDG's Microsoft Managed Services offer a complete package tailored to your organization's unique environment. Our services are flexible and adaptive, expanding as your organization grows to ensure protection from new and emerging threats.

SDG enables your organization to fully leverage its Microsoft technology, providing a robust security solution for your entire IT environment.

WITH SDG, BOTH SMALL BUSINESSES AND ENTERPRISE-LEVEL ORGANIZATIONS CAN BENEFIT FROM:

- Ⓖ Full utilization of the Microsoft security framework
- Ⓖ A reduction in administrative tasks
- Ⓖ Continuous improvement in security posture
- Ⓖ Customized governance and compliance reporting
- Ⓖ Swift integration
- Ⓖ Quick Incidence Response
- Ⓖ Adherence to Compliance and Regulatory requirements
- Ⓖ Log management and retention
- Ⓖ Fast remediation and escalation
- Ⓖ Active Directory (AD) assessment
- Ⓖ Management of Sentinel SIEM and SOAR
- Ⓖ Sentinel based SOC services
- Ⓖ Enhanced Data Protection on Microsoft Cloud
- Ⓖ Secure Data Migration to and from Microsoft Cloud
- Ⓖ Modernization of legacy applications
- Ⓖ Security best practices

SDG's high level of expertise in cybersecurity in conjunction with Microsoft's modern solutions allows you to confidently expand, develop, and innovate your business amid significant volatility and risk from increasing and sophisticated cyber threats.

ABOUT SDG

With more than 30 years of experience partnering with global enterprises on complex business and IT initiatives, SDG is a trusted provider of advisory, transformation, and managed services. The firm empowers organizations to strengthen cyber resilience by integrating AI into identity, threat, and risk management solutions that protect digital assets and deliver measurable business value.
