

# Cybersecurity Services

## PROACTIVE CYBER DEFENSE TAILORED TO YOUR NEEDS

From strategic advisory and world-class consulting to threat hunting and incident response, SDG has the expertise to keep you ahead of today's security challenges.

### HOW SDG'S CYBERSECURITY SERVICES BENEFIT YOU:

- ✔ Assurance that your security measures align with current standards and best practices ensuring top-tier cyber defense.
- ✔ A unified security posture that stops threats in complex environments.
- ✔ Continuous monitoring and response minimizes the potential harm from threats through 24/7 surveillance and rapid response.
- ✔ 360 degrees of protection with "Offensive-Defense" framework proactively counters cyber threats.
- ✔ Scalable security and continuous improvement for greater security without the excessive investment.
- ✔ Real-time threat intelligence keep you informed to anticipate and mitigate risk promptly.
- ✔ Tailored solutions for your unique risk profile.
- ✔ Strict adherence to regulations and security measures that meet or exceed compliance standards.

### THOUGHTFUL AND EASY GUIDANCE BY EXPERTS YOU CAN TRUST TO PROVIDE:

#### MANAGED SECURITY SERVICES

Embrace a layered defense strategy with SDG's Managed Security Services. We offer a comprehensive catalogue of services, tailored to safeguard your organization against both conventional and advanced cyber threats.

#### CLOUD SECURITY

Ensure robust protection for your cloud infrastructure with SDG's Cloud Security Services. From comprehensive risk assessment to advanced threat mitigation, secure your digital future in the evolving cloud landscape with our CSMP, CWPP and CNAPP based services.

#### SECURITY ASSESSMENT

Unearth vulnerabilities with SDG's Security Assessment. Our suite of services, including VA, PT, Red Teaming, Social Engineering, and attack Surface Analysis, strengthens your defense and bolsters cyber resilience.

### SASE-AS-A-SERVICE

Seamlessly secure your network and simplify management with our SASE-as-a-Service. Our solution integrates networking and security services for optimized performance, enhanced security, and streamlined operations.

### ZERO TRUST

Embrace a 'never trust, always verify' approach with SDG's Zero Trust Maturity Model. Our expert team assesses your readiness and guides you through implementing this robust cybersecurity paradigm for unparalleled defense.

### VULNERABILITY & PATCH MANAGEMENT

Expose vulnerabilities and secure your systems with SDG's Vulnerability Assessment and Patch Management Service. Stay ahead of threats by fortifying your infrastructure against potential exploits and ensuring optimal cybersecurity hygiene.

### MANAGED DETECTION & RESPONSE

Experience unmatched vigilance with SDG's Cyber Defense Center - a state-of-the-art hub that combines cutting-edge technology, strategic insights, and an expert team to provide 24/7 proactive defense against emerging cyber threats.

*"The team have shown a clear understanding of the requirements, deliverables, and tracking. Documentation has been created to a high standard to give our team the most possible information to resolve problems. The team's ability to work with the solution and push for a resolution on raised problems is very valuable, and something I am extremely grateful for."*

- Sr. Cybersecurity Leader, Global Luxury Cruise liner

## SDG'S 30 YEARS OF EXPERTISE IN PROVIDING CYBERSECURITY SHINES

We are technology agnostic; this means we work for YOU, not an outside tech provider. We have templates, for sure, but our flexibility, extensible methodology, and 30-years in the cybersecurity business allows us to map a unique path to success based on your organization's individual needs.

75 North Water Street  
Norwalk, CT 06854
